

IMPORTANT NOTICE – COVID 19

To all Australasia International School Students and Staff

These are very different and difficult times we are living in at the moment, the terrible COVID-19 virus has caught the world by surprise. The Australian Government has asked that all Australians remain calm and to make the best choices using up to date information about this virus.

We know that this virus causes fatalities in people with pre-existing conditions and the elderly, so most people who do get the virus, will be okay.

We also know that the virus spreads communicably and by touch.

- **Communicably:** the less we are away from large groups of people, the less chance we will contract the virus.
- **Touch:** the more we use safe hygiene practices, the less chance we will contract the virus.

AIS will not close and continue to operate.

When the time comes and we are told to “stay home and self-isolate”, all college staff will maintain the administration side including student services of the business and the trainers will continue training students, using a distance training model.

Staff can continue to work. Students can continue to learn. Everyone will receive their instructions in detail, when the times comes.

Between now and then please remain calm, use safe hygiene practices and keep up to date with the news.

AIS staff will always be available to talk to and answer any questions that you may have.
