

## CLINIC CLOSURE

Due to the safety precautions as advised by the Australian Government Department of Health and the Department of Education Skills and Employment, we are closing the AIS Beauty & Massage therapy CLINIC services.

The CLINIC will be closed to the general public after today, Monday, 16 March 2020. It is open today.

It will remain closed until COVID 19 is controlled.

For this week only, students may continue to provide these services to students & staff of AIS only and only if a health disclosure form is signed by the client. Anyone presenting with any cold or flu like symptoms should not present for any CLINIC services.

A new **Room Hygiene checklist** is to be completed by both the students and trainer at the beginning and end of every day, it will be filed for compliance as well. This is applicable to all rooms that conduct Beauty & Massage therapy training, including the theory rooms.

And remember:

- Use hygiene practices throughout the day when using objects such as white board pens, dusters, and any class resources.
- Use hygiene practices throughout the day including wiping down with disinfectant communal surfaces such as beds, desks, keyboards and door handles.
- Use hygiene practices throughout the day by using hand sanitiser when entering the classroom and after using the bathroom and after any meal breaks.

Thanking you,

**BRUNO TINI**  
Chief Executive Officer
